FINALE PRINTMUSIC®

Finale PrintMusic empowers every musician to quickly create and customize music notation that looks – and sounds – great. Enter notes with a mouse, MIDI keyboard, or scanner, transforming ideas into notation that can easily be shared in multiple ways.

SKU	PHR14	**MSRP**	$119.95
UPC	6 06776 00502 9	**CASE PACK**	10

product features:

From the creators of Finale, the world's most trusted professional music notation software, PrintMusic offers more options than comparably priced programs for composing, arranging, playing, printing, and sharing music:

- Create great-looking music notation.
- Arrange full ensembles and extract individual parts.
- Hear your music play back with realistic sounds and nuance.
- Scan sheet music, choose between a handwritten or engraved appearance, host VST/AU plug-ins for professional playback, import and export graphic files, and much more.
- Share the results as printed sheetmusic and PDFs, as well as MP3 audio files, and as Finale and Music XML files that can be opened in other programs.

market potential:

PrintMusic is the affordable choice for arrangers, composers, teachers, band/choir/orchestra directors, worship leaders, students, and other musicians who don't require the more advanced features in Finale.

market comparison:

- Compared with SongWriter, boasts 24 staves (vs. 8), music scanning, more sounds, graphics import/export, part extraction, and more.
- Only Finale-family software can exchange files directly with MakeMusic's free software including Finale NotePad.
- Can create scores with up to 24 staves vs. 12 in Sibelius First.
- Offers a significant security advantage over open source software.

system requirements:

WINDOWS®: Vista / Windows 7 / Windows 8 (64-bit compatible), Intel® Core™ 2 Duo processor or AMD Athlon™ processor.

MACINTOSH®: OS X® 10.7-10.9, Intel® Core™ 2 Duo processor or better.

BOTH: DVD-ROM drive. 800 X 600 minimum monitor resolution. 2 GB of RAM, more recommended. 700 MB hard drive space.
