

# Ensuring Equitable Music Education: Seamless Learning, District-Wide.

---

# What is MakeMusic Cloud?

---

## A Music Educator's Partner for Student Success

-  **Streamline teaching:** Streamline grading and assignments
-  **Empower Practice:** Tools for guided, independent learning
-  **World-Class Library:** 20,000 titles with authentic recordings

# A single solution for all music teaching needs.

## Repertoire

A growing music catalog with over 20,000 titles for all levels.

## Teaching Tools

Assessment support, gradebook, custom rubrics, units, and analytics.

## Practice Tools

A tuner, metronome, fingerings, and tools to loop and record are built in.

## Professional Accompaniments

Play along with the real accompaniments (not MIDI) for enhanced practice experience.

## Sight Reading Studio

Build sight-reading skills with unlimited, customizable exercises.

## Music Composition

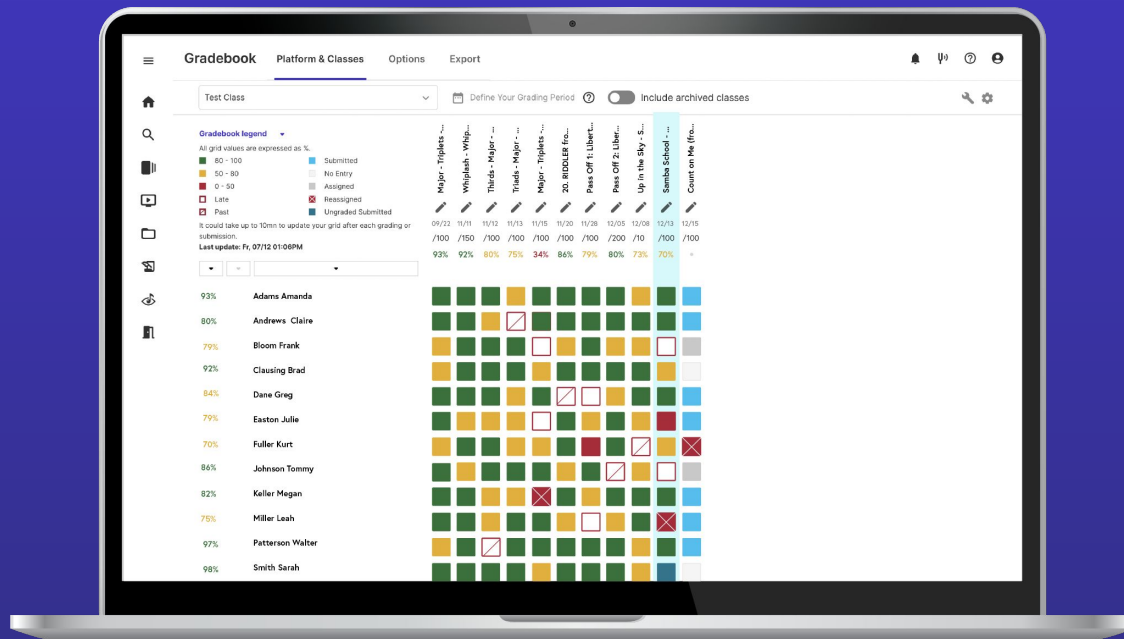

Import, edit, and create music composition for student assignments and more.

Track student progress online with Gradebook, accessing student recordings, assignments, and performance scores.

Customize rubrics with the criteria that matters for your curriculum.

Collect assignments into units and easily assign those units to multiple classes.

Track student practice time and see what content students explore on their own.

# LMS Integration

---

In-house integration  
with tools you already  
use

- **Single Sign-On** is available with Schoology, Canvas, ClassLink, and Google Classroom.
- **Rostering** is available with CSV upload, Schoology, Canvas, and Google Classroom.

Google Classroom

schoology®

COMPANY**

*...and many more!*

**MakeMusic partners with all the industry's leading educational publishers to add relevant content to both our Interactive and Digital Sheet Music Libraries.**

# Support Students' Needs As They Learn How To Practice

- Students control practice loops, tuner, and hear their part or accompaniment.
- Adjust tempo and maintain high-quality accompaniment.
- Immediate feedback provides guidance on what pitches & rhythms are hit or missed.
- Click on a note to either hear the note or display a chart with the correct fingering.

# Support Students' Needs As They Learn How To Practice

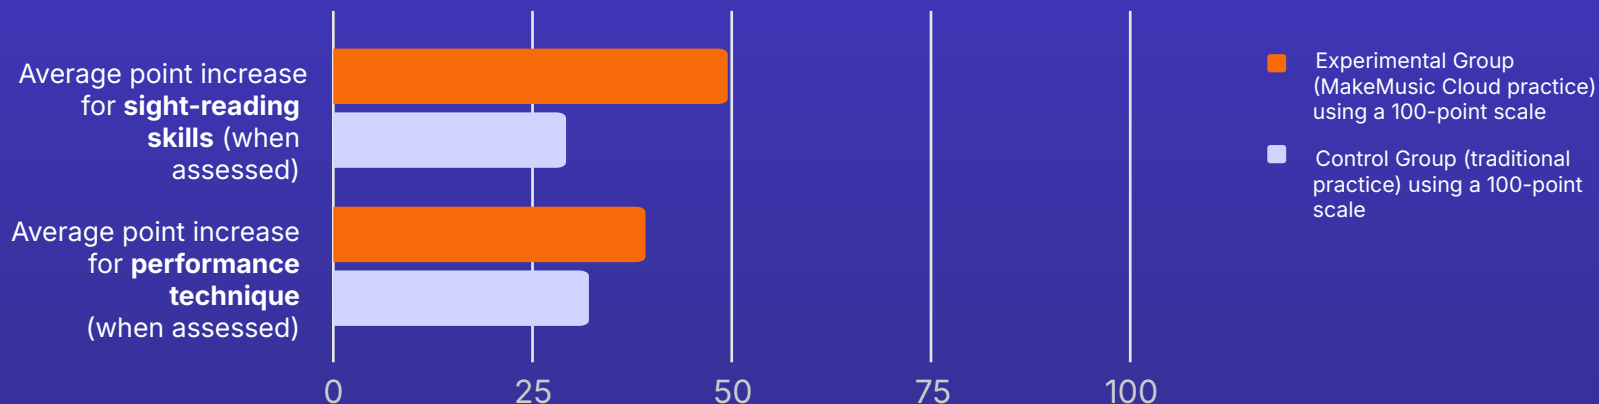

- Students can record themselves in an assignment and send their best take to their teacher
- Students practice exercises & songs from our repertoire library to complete assignments.
- Red notes indicate an incorrect pitch. Yellow notes indicate the student was early or late. Green notes are correct.

# MakeMusic Cloud Gets Results

Average Growth using MakeMusic Cloud vs. Traditional Methods

Academic studies confirm that MakeMusic Cloud has a proven, positive effect on student outcomes:

- For **Sight-Singing assessment**, MakeMusic Cloud had a positive effect with students scoring an average of 49.4 points higher from Pre-Assessment to Post-Assessment, compared to 29.25 points for students not using MakeMusic Cloud.
- For **Ear Training assessment**, students using MakeMusic Cloud scored an average of 29.9 points higher from Pre-Assessment to Post-Assessment, compared to 20.75 points for students not using MakeMusic Cloud.

# Invest in MakeMusic to Reclaim Time & Money

## MakeMusic ROI for Your District

- **Teacher Retention**

Reduce administrative burden & workload to combat burnout and support work-life balance.

- **Instructional Consistency**

Ensure all students get the same quality of instruction with standardized assignments and helpful resources.

- **Transparency**

Centralize and automate parent communication for better oversight and communication.

- **Program Quality**

Free up educators' time so they can focus more on providing personalized support and instruction.

**30-38**

### Instructional Days Saved

MakeMusic saves 30-38 work days per music teacher annually, reclaiming valuable time for teaching over administrative tasks.

### Increased Student and Program Performance

By freeing up teacher time, MakeMusic leads to increased student and program performance through more personalized instruction and a richer learning environment.

### Reduced Costs from Teacher Turnover

By easing workloads and supporting teachers' well-being, MakeMusic helps lower burnout and turnover. Reducing the high costs associated with staff turnover.

### Increased Support Amid Staffing Shortages

MakeMusic helps teachers manage larger class sizes by streamlining instruction, grading, and feedback, making it easier to maintain instructional quality despite reduced staffing allocations.

# Training and Implementation Support

---

# Training Options

---

1

## **MakeMusic Academy**

Free, on-demand video courses from MakeMusic Academy. Created by classroom music teachers, these short courses simplify every aspect of teaching with MakeMusic.

2

## **Virtual Training**

1-hour virtual instructor-led training sessions for new and returning teachers, facilitated by a certified MakeMusic clinician.

3

## **In-person training**

A full day of training customized to the needs of your program, school, or district, led by a veteran music teacher.

# Meeting the Music Standards

---

## Creating

Our built-in notation tool, Compose, allows teachers and students to create compositions and share their music.

## Performing

Our vast library of digital, interactive music empowers student choice and equips teachers with essential curriculum, from methods and solos to ensemble pieces. Plus, our practice tools refine every performance.

## Responding

With our vast library and playlists, students can explore diverse genres, compare performances, and refine their musical understanding.

## Connecting

Creative assignments leveraging our catalog allow students to connect music with other arts, disciplines, society, and culture.

## Experience *The Foundations Series* by Brian Balmages

## Pedagogically focused exercises set to engaging movie soundtrack accompaniments

- Band and string exercises for beginning-intermediate levels
- Supplement your method book with correlating exercises
- Print scores and parts free with your subscription
- Explore now: *Harry Potter Foundations*—a complete method book 1

Classrooms that use *Foundations* have seen a **2x increase** in student practice time

## State List Titles

---

Thousands of titles in MakeMusic also appear on approved state lists.

[Browse your state list here](#)

# Real-Time Feedback & Streamlined Assessment

## Immediate, Actionable Feedback:

Students receive instant algorithmic assessment on pitch, rhythm, and duration, plus contextual reference by recording with accompaniments.

## Empower Self-Correction:

During assignments, students access tools to boost comprehension and facilitate self-correction before submission.

## Efficient Grading & Personalized Coaching:

All submissions aggregate into a gradebook. Teachers can listen, finalize scores, and provide immediate, remote feedback and encouragement, completing the practice loop.

*he quality of the playing tests are so much better with the web-based version than the classic. I can really hear how students are playing the assignments. The other feature that I really like with the web-based is the practice analysis. Being able to track my students usage on MakeMusic Cloud has really helped them reach their individual goals.*
